**Follow Up Flag:** Follow up  
**Flag Status:** Red

Gentlemen,

Thank you all for being available on January 23 at 8:30 a.m. for a meeting of the computer minds regarding the state's satellite office in Troy. Let's plan to meet at the Tetra Tech Offices in Helena (Mark Stockwell, please call in). Their offices are on the corner of Last Chance and 6<sup>th</sup> Ave, 6<sup>th</sup> floor of the Power Block Building. (Marty, we'll arrange to ride together.)

Tetra Tech will also have additional computer support folks present.

I would like to discuss the details of the computer needs, options, and availability in Troy. This will include TtEMI e-mail/corporate sites needs, DEQ firewalls, internet, e-mail, etc. Please come prepared with your needs and options so we can have a beneficial discussion. Please also invite anyone else you think will be necessary and helpful for this endeavor.

Thanks again for all of your time and effort for this project. Any questions or concerns, please feel free to call me.
